

HOW TO Measure Your Nipple Diameter

Print and cut out the below nipple ruler to measure your nipple diameter.
Measure the nipple diameter **BEFORE** a pumping session.

Check print sizing by comparing the circle above to a penny. The penny should fit inside the circle.

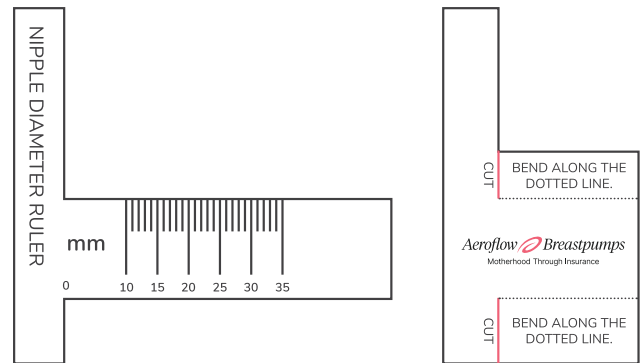

INSTRUCTIONS

Step 1

Print out the page on an A4 / letter paper at 100% scale. Make sure the lines across is 92 mm or 3.62 inches for accuracy. You can also use the circle above to check print size by using a penny.

Step 2

Cut out the square and rectangles. There will be two pieces: the RULER and the SLIDER. Cut along the two CUT lines on the SLIDER.

RULER

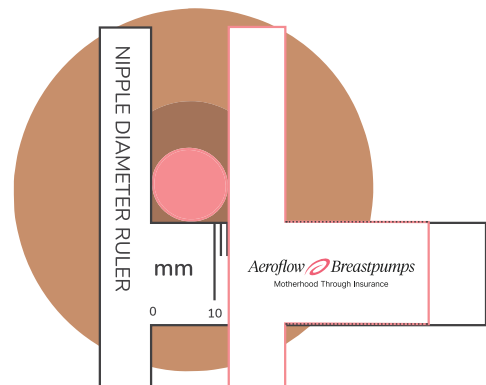

SLIDER

Step 3

Place the SLIDER over the RULER. Bend / fold along the dotted lines on the SLIDER around the RULER.

Step 4

Place your nipple between the RULER and the SLIDER. Adjust the SLIDER so the RULER and SLIDER gently touch both sides of your nipple. Measure your nipple diameter.
